

Earth Day is observed on 22nd April all over the Globe.

Awareness Drive was organized by Modern School on 23rd April on the occasion of Earth Day. A rally was taken out in the school's neighborhood to sensitise people about the deteriorating environmental conditions and encouraging them to work towards resolving the issues. Students of classes V n VI participated in the rally and slogans of 'plant trees, save Earth' Act today, save tomorrow' resounded in the area. The idea behind it was to sensitise students about their responsibilities and help in grooming them into worthy citizens.
